

UNITED STATES DISTRICT COURT
DISTRICT OF NEVADA

UNITED STATES OF AMERICA,

Plaintiff,

v.

DANIEL JOSEPH EGAN,

Defendant.

Case No. 2:07-cr-00145-KJD-PAL-2

Order

Presently before the Court is Defendant's pro se Motion to Plea by Mail and Request for Hearing to be Set (#1632). Currently, Defendant is incarcerated at the Sterling Correctional Facility in Colorado, with a mandatory release date of December 28, 2027. However, Defendant has an outstanding revocation petition, addendum, and warrant in the District of Nevada. (#1624; #1626; #1628). Defendant's motion requests that this Court hear his revocation petition, squash his retainer, and order that any time served for his revocation to be served concurrently with his state court sentence. (#1632). Defendant further requests that the hearing take place virtually. Id. at 2. Initially, the Government did not file a response. However, after reviewing Defendant's motion, the Court ordered the Government to file a response within thirty days. (#1634). The response was timely filed and is now before the Court. (See #1637).

The Government asserts that it has reviewed Defendant's history, his conduct in this case, and his conduct in Colorado, and does not intend to request a writ of habeas corpus ad prosequendum at this time. Id. at 2-3. At this time, the Court finds that issuing a writ of habeas corpus ad prosequendum is not appropriate. However, since Defendant has requested a virtual hearing, the Court refers this request to Magistrate Judge Weksler to determine whether an initial appearance by teleconference is appropriate in this context.
